DAPOL CLASS 66 :

Subject to receive this prototype just in time, we hope to present to you in Bourges the decoration sample of the 66036, an exclusive series of 150 pieces made for us by Dapol. Around 50 models are still available for sale.

Dear customers,

The Bourges International Model Train show will start in one week.

A such exhibition, staying out of the traditional and busy Autumn season have to be supported.

By the way, CHREZO will only participate in the Meursault exhibition on December 13 and 14, 2025 (subject to approval by the organizer).

We will take advantage of the Bourges show to unveil our fifth engine project! A little hint: it did not experience era III.

Until then, or if you cannot attend, this 40th Newsletter presents you with rich and varied news that testifies to the dynamism of CHREZO and our ambition to make the Zero scale ever more attractive and accessible.

Enjoy reading!

CHREZO X 3800 « Picasso » RAILCARS

With one or two exceptions, we have completed the distribution of X 3800 railcars to 400 subscribers who have trusted us since August 2020. If unfortunately you have been forgotten, do not hesitate to contact us to improve this situation as quickly as possible.

We thank all those who have expressed their satisfaction upon receiving the fruit of their patience.

For their part, retailers are doing the job and at this stage, more than 120 models have been sold through this channel. 250 models therefore remain available for sale and will be offered on our stand in Bourges. Item number 3800-04 (XBD 3879 railcar from Bordeaux shed) in the DCC Sound version is now sold out.

We also remind you that there is an unpainted variant intended for transformation enthusiasts (item number 3800-05). Here is an example of an inspection railcar produced on this basis by François-Xavier Jamois (infos : <http://jamoisfx.fr>).

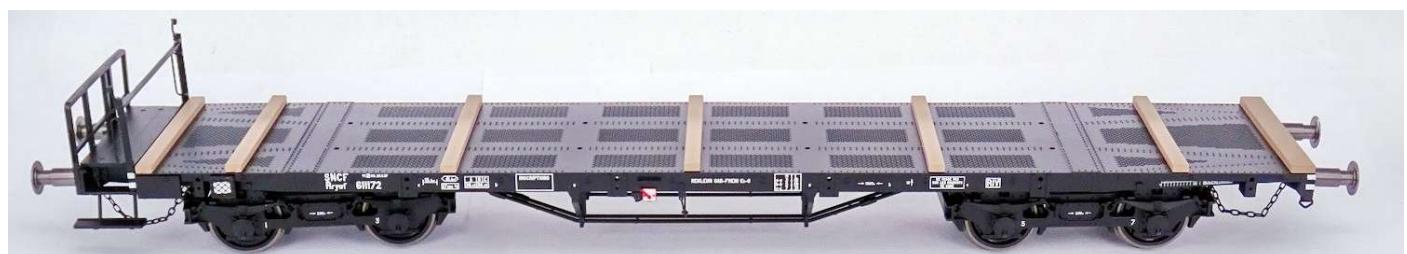

SCHNELLENKAMP : SS15 GERMAN BOGIES FLAT CAR RELEASE

We will show you in Bourges the 2 decoration samples

- SNCF Rrywf 197694 (nouvelle immatriculation), maintenance date 1-2-63 :

- SNCF Rrywf 611172, maintenance date 25-11-57 :

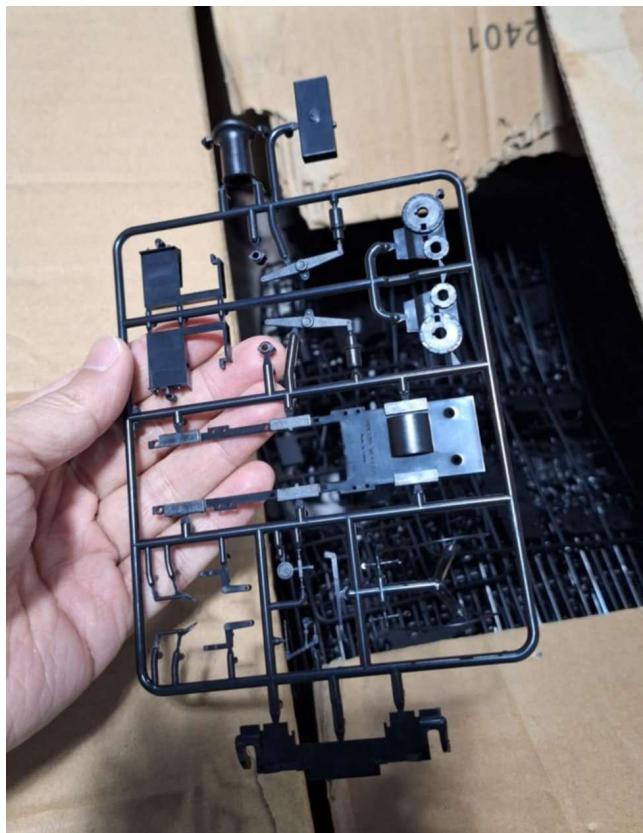

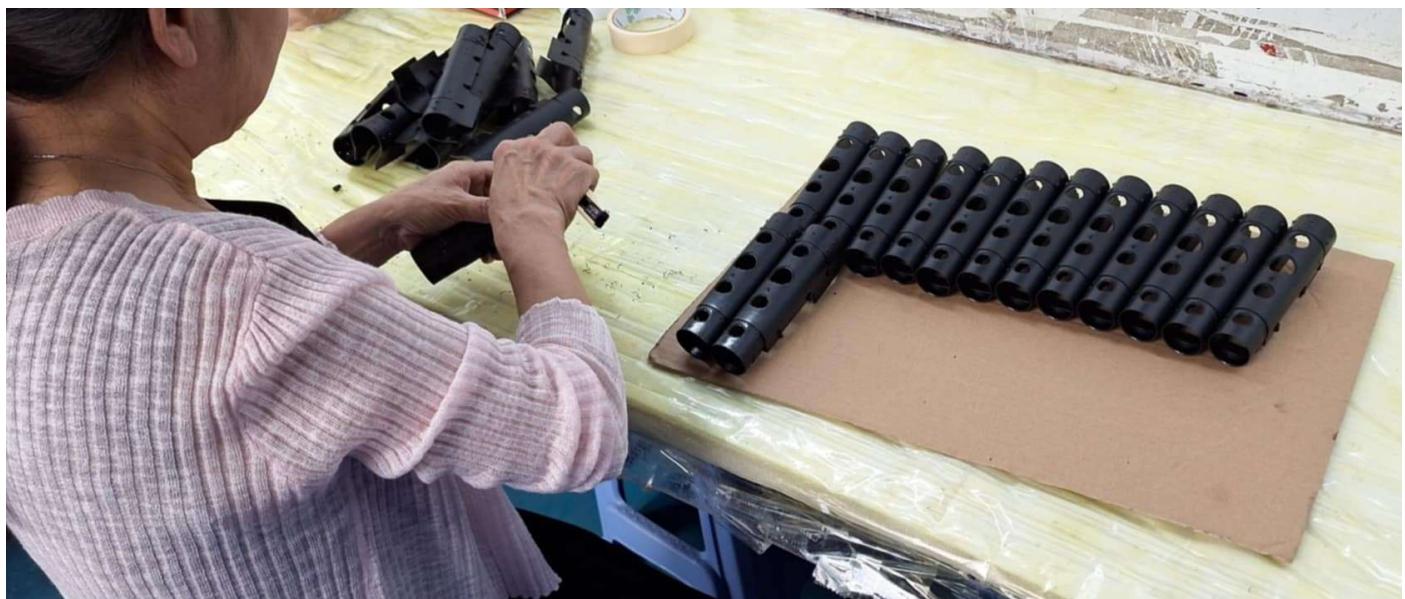

The model is made in 1/45, mainly in injected plastic, length over buffers 336 mm, screw couplings and Lenz provided, at the price of **€190.00** including VAT, 50 pieces per livery. Availability April 2025.

On this occasion, you can also purchase pairs of Diamond bogies with a 2-meter wheelbase (larger than the TP, therefore...) with full-plate axles, at the price of **€80.00** including VAT.

CHREZO / MINERVA MODEL RAILWAYS : Locomotives 030 TU

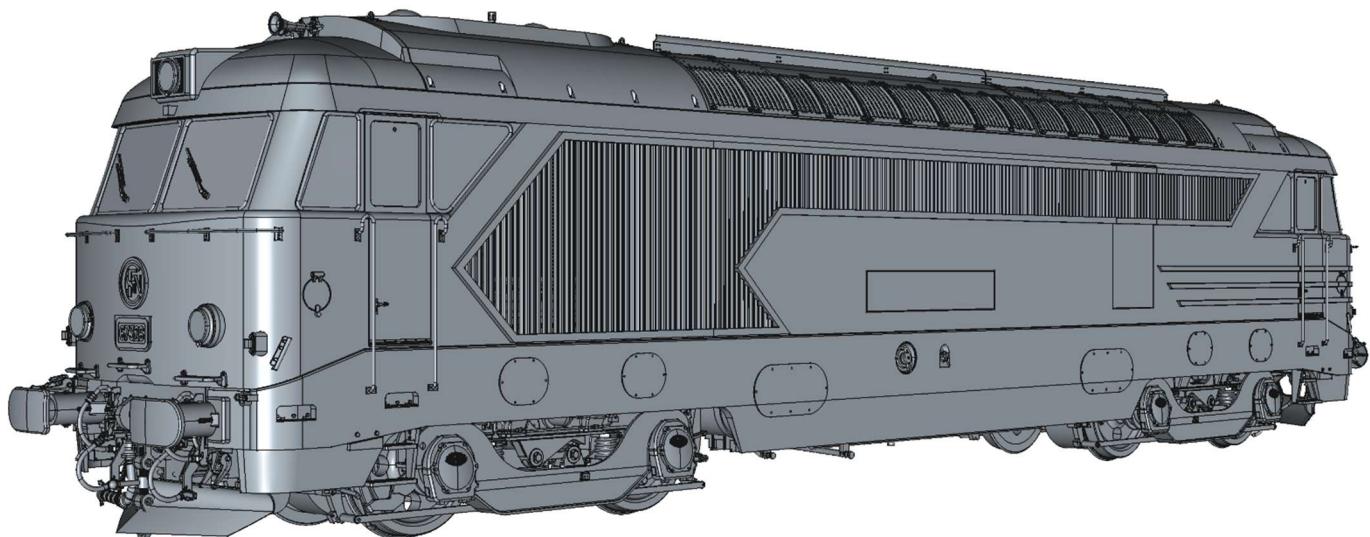

The manufacturing of this lovely switcher, landed in France in July 1944, has begun and delivery to France is expected for June 2025. Here are some views of the assembly operations :

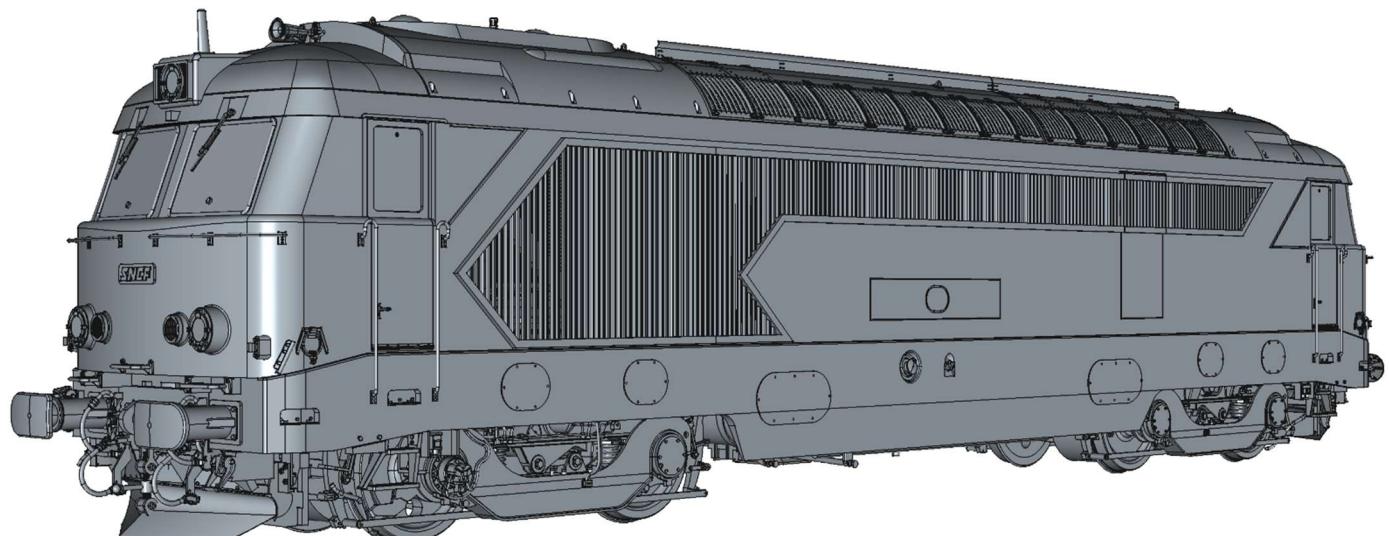

CHREZO BB 67000 / 67200 / 67300

We were hoping to present you in Bourges the first drafts of molds of this family of emblematic locomotives. Unfortunately, the finalization of the 3D drawings is still in progress, with new details identified to refine or improve. In the meantime, here are some views of the different bodies with their specificities respected:

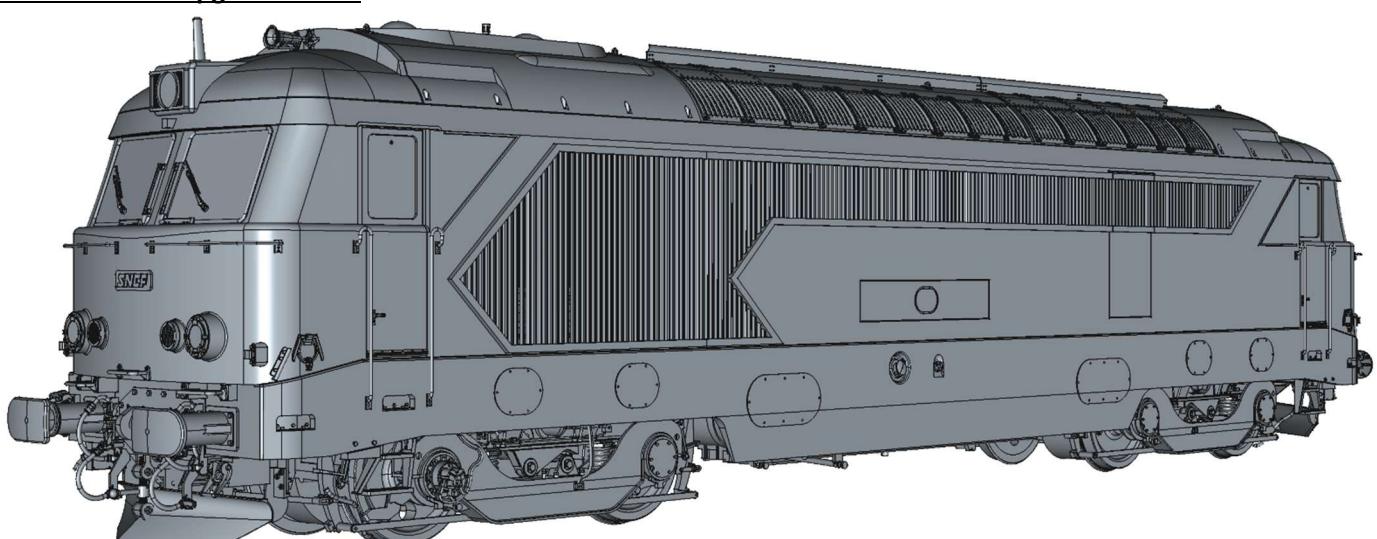

Early body :

BB 67200 :

BB 67300 with upgraded cab :

For this model, to which more than 250 enthusiasts have contributed since summer 2023, we still hope to present production samples to you at the Meursault exhibition in mid-December.

STILL IN STOCK !

Here is a quick summary of the different models that are still in our stock and available:
